SAN JOSE, CALIFORNIA, FRIDAY, NOVEMBER 16, 1962

No. 42

India Fights Back Near Burma Border

By PATRICK J. KILLEN
NEW DELHI (UPI) — Indian troops have launched their strongest attack against the Communist Chinese since the Reds started their invasion in force on Oct. 20, it was announced officially yesterday.

An official spokesman said the attack was launched by a "strong patrol" against a Chinese position northwest of Walong in the eastern portion of the North East Frontier Agency (NEFA) near the Burma border.

He said the fighting still was going on when latest reports were received Wednesday night.

The Communist New China news agency reported, in a broadcast heard in Tokyo, that more than 1,000 Indian troops had launched attacks against the Chinese forces in the past 48 hours but had been repelled.

NEHRU SENDS LETTER
At the same time, another spokesman disclosed that Prime Minister Jawaharlal Nehru had sent another letter to Communist Chinese Premier Chou En-lai. It was delivered to the Chinese Embassy in New Delhi Wednesday night for relay to Peking.

The spokesman said it was a reply to Chou's letter of Nov. 4 in which he offered a cease-fire and negotiations if troops of both sides were pulled back to their 1959 positions.

This would give India control of all of the NEFA but leave the

Communist Chinese in possession of 10,000 to 20,000 square miles of northeastern Ladakh on the western end of the disputed border between the two countries.

The spokesman declined to comment on the contents of Nehru's letter.

The spokesman announced that 59 countries now have signified their "sympathy and support" in letters to Nehru and had "condemned the Communist Chinese aggression." He named Afghanistan, Ghana, Brazil, the United Arab Republic, Yemen, and Saudi Arabia as some of the nations now added to the original list of 40 which had been announced previously. Pakistan, Nepal, Russia and Yugoslavia still are not included.

SOVIET AIDS INDIA

However, the Soviet Union appears to be taking unusual measures to establish itself as a friend of India, despite this nation's undeclared border war with Communist China, a Soviet ally.

Tass news agency reported from Moscow Wednesday that a contract had been signed Wednesday for the delivery to India of Soviet-made equipment for gas and oil exploration and research.

The agency also announced that Russia had permitted India to open a consulate in Odessa because of growing trade, business and cultural relations between the two countries.

Turkey is the only other non-Communist nation to maintain a consulate in the Soviet Union. It is located at Batumi on the Black Sea.

Earlier this week Prime Minister Jawaharlal Nehru disclosed that the Russians had given assurances they would carry out agreements to supply India with MIG jet fighters and a plant to make them.

Nehru told parliament Wednesday that the Soviet attitude has been "consistently friendly."

"They have been put in a difficult position because they are an ally of Red China," Nehru said. "We don't expect them to break that alliance. But we have their good wishes, even recently, and that is a consolation to us."

Israeli Ambassador To Address ICC

Mordechai Shalev, Consul General of Israel, will speak on "Israel's Foreign Aid Program in Asia and Africa," Monday morning at 11:30 in the College Theater.

The Consul General's talk is sponsored jointly by the International Student Center, International Relations Club and the Inter-Cultural Council.

Formerly active in Israel's Foreign Ministry, Shalev took his present post as Consul General of Israel for the 11 western states, Hawaii and Alaska in June, 1961.

Lyke's '62 SDX Award Makes Two-in-a-Row

Announcement of Lyke magazine's winning first place for "all around general excellence" in the 1962 national contest sponsored by Sigma Delta Chi, professional journalism fraternity, marks the second year in a row the SJS feature magazine has received that award.

Issues of Lyke published during the 1960-61 academic year brought the magazine the rating, the only award made in the magazine division of the fraternity's contest last year.

This year's award, made Wednesday at the 1962 national convention of SDX in Tulsa, Okla., was received for the fall 1961 and spring and summer 1962 editions of Lyke.

GRAND PRIZ
The fall issue, under the editorship of Pat O'Daniels, sported a picture-story of the second annual Pacific Grand Prix sports car races at Laguna Seca, held in October 1961.

An interview with the \$7,000 double-winner of the race, internationally known British sports car driver Stirling Moss, completed the race story.

Also featured in the magazine were three Lyke Dolls and a picture-interview with political satirist Mort Sahl, America's "master of mature wit."

'SATCHEMO'
The spring 1962 issue of Lyke was prefaced with a three-column wood cut of jazz trumpeter Louis Armstrong on its cover and of-

ferred a potpourri of feature articles.

A pseudosociological study of the "Spartan Beanyery" exposed, in story, photographs and diagram, a possible caste system in the cafeteria.

Following a theme of "Graduate's Guide to the Cruel World," the summer 1962 issue of Lyke presented a 16-page farce which included a satirical graduation speech, cartoons on occupational dress, a cartoon guide to Europe and advice from the business world.

SPOTLIGHT SHARES

Lyke's personality spotlight was shared in this issue with interviews of world-citizen Gary Davis and the San Francisco husband-wife artist team, Mr. and Mrs. Walter Keane.

The interview with the globe-trotting campaigner for one-world, who renounced his U.S. citizenship in 1948 to become a citizen of the "borderless world," also included a letter of advice to graduating seniors from Davis.

Campus conservative and liberal politicians were also featured in this issue of Lyke, with a satire by Dr. Roland Lee, associate professor of English, and Gerald Nachman, television columnist for the San Jose Mercury and SJS graduate.

Editor of the spring and summer 1962 issues of Lyke was Jay Thorwaldson, currently public information officer for the ASB. Present Lyke editor is Ann Kuizenga.

Dr. Aberle, Hauck Win Shops Posts

Dr. John W. Aberle, head of the Marketing Department, was elected chairman and ASB President Bill Hauck, vice chairman, of the Spartan Shops, Inc. Board yesterday.

The elections followed an hour's general discussion as to whether or not a student may serve as chairman of the board. There is no distinction made in the board's by-laws concerning this point, it was noted by Hauck and other board members.

Hauck, nominated for the chairmanship of the student-faculty board, stated that his main purpose in having himself nominated for the position was not necessarily to have himself elected and, have additional powers ("if any"). "I understand that it does take a qualified person to run this board," he remarked. "But I do feel that students should take a significant part in the function of these committees and boards."

Following general remarks from both faculty and student board members, Dr. William J. Dusel, vice president of the college, declared, "This board is responsible for formulating management policy for a very profitable and powerful business organization." He said that experience in both campus and managerial affairs must be considered in selection of a chairman.

Dr. Aberle, winner by a 10-4-1 vote, will be responsible for calling meetings and for any other communication and liaison work for the board. Hauck was elected vice-chairman on a white ballot.

The board sets the policy governing the operation of such campus enterprises as the Spartan Bookstore and Cafeteria.

More Than 300 At Patrons Dinner

More than 300 persons attended the 30th annual Patrons Club Dinner, held last night in the Women's Gym to raise funds for students' scholarships and for a revolving student loan program.

Bill Hauck, ASB president, spoke to the patrons of San Jose State about the "critically needed Student Union."

Though the dinner is potluck, the patrons pay for it. Gifts and other articles made by the members are sold to raise money for the scholarship fund.

ALMOST READY—John Deal, (l), KSJS student chief engineer, takes a last look at the omnidirectional antenna installed atop the North Library Thursday, with John Delantoni, student station manager. By Dec. 3, KSJS, San Jose State's FM station, will be broadcasting on 85 watts of effective radiated power at 90.7 on the FM dial, KSJS, when in operation, will be heard as far away as Redwood City to the north, and Morgan Hill to the south.

Researcher To Discuss TV's Effects

Dr. William A. Belson, head of the survey research unit of the London School of Economics and Political Science, will be on campus today from 1:30 to 5:30 p.m. to meet informally with faculty members in A/V201.

Dr. Belson, author of "Television and Society," will discuss television's effects on delinquency. For several years, Dr. Belson was senior psychologist for the British Broadcasting Corporation. He has done extensive research in audience reactions to television and research techniques.

Copies of articles written by Dr. Belson are available from Instructional Center Library, TH32.

Before visiting the SJS campus, Dr. Belson will visit the San Jose juvenile hall in connection with his latest research.

Area Librarians To Hear Panel Discuss Services

The fall meeting of the Northern California Technical Processes Group of the American Library Association will be held today beginning at 9:15 a.m. with a coffee hour in H1.

Following the coffee hour, the group will hear a panel discuss "The Place of the Technical Services in the Academic Library." Panel members will be Dr. Charles B. Burdick, associate professor of history, Mrs. Miriam C. Maloy, head of technical services at Stanislaus State College; and Theodore F. Gould, head of loan department at University of California Libraries.

The discussion will be followed by a luncheon at 12:15. Following the luncheon, a business meeting is scheduled.

Attending the function will be 75 representatives from Bay Area and Northern California libraries.

'Gams' Contest Deadline Coming

Start beautifying those legs, men; the "Gorgeous Gams" contest approacheth.

Deadline for turning in applications and the \$2 entry fee is Tuesday at 5 p.m. in the College Union, according to Rod Buchignani, Freshman Class publicity chairman.

All contestants are required to have an 8-10 photograph with their name and sponsoring organization on the back turned in by Nov. 27.

Voting will be conducted by penny ballot in front of the cafeteria on Nov. 28 and 29 from 8:30 a.m. to 4:30 p.m.

The winner of the Freshman Class-sponsored contest will be announced at a rally and dance Nov. 30. The dance will be held either in the Art Quad or the Women's Gym, depending on the weather, from 7-11 p.m.

All of the entrants, the freshman basketball team and the freshman class cheerleaders will be on hand. Admission will be 25 cents per person.

Wear White

Spartans who plan to sit in the rooting section at tomorrow's SJS-Stanford football game at Stanford must wear white, according to head cheerleader Steve Frohling. No one will be admitted into the section unless he is appropriately attired, he said.

Speaker Lashes Out At Disarmament Act

By GEORGE MARTIN
Pounding his fist on the podium to emphasize his points, and quoting liberally from U.S. government documents for background, Dr. Theodore Jackman yesterday afternoon denounced the Arms Control and Disarmament Act and the commission it created in 1961, before a small Students Against Communism audience in TH55.

The grey-haired former anthropology lecturer charged that the act provided for a "takeover" of the State Department, and made the Secretary of State a "tool of the disarmament director."

Jackman said that the formation of the agency was a part of the "Soviet timetable" to disarm the United States by 1963, the date he termed the "Red deadline."

Unless the Arms Control and Disarmament Act is repealed immediately, he said, "the enemy within will issue and prosecute orders for our total disarmament, by a 'crash program' is necessary."

Disarmament, he said, is equal to surrender.

Urging members of the audience to write their representatives about their feelings about the act, he said, "You should let him (your representative) know he is going to vote intelligently or he is going to be smeared and thrown out of Washington in disgrace."

"The time for being 'nicely nice' is over," he said.

Jackman emphasized that the law makes the director of the agency the "principle adviser" to the President and the Secretary of State," he said, "but he is by law the adviser of the Congress, too."

Incensed at the passage of the bill, Jackman said that the representatives in Congress who passed the bill "should be brought before a court" for passing "such damnable and cursed legislation that has the power to crush the hopes of people to live in peace."

"The Secretary of State," he said, "should borrow the President's rocking chair, for he (Kennedy) is evidently 'off his rocker,' and he needs a rest to get up on his feet and see what he has done."

Another sore point with Jackman is a clause in the act which provides that the Disarmament agency shall provide the U.S. Information Agency with official U.S. positions and policy on arms control and disarmament.

Delantoni said that there was a survey run three years ago at the campus, to determine how many potential listeners an FM station might have. Results showed that 25 per cent of the students at that time owned FM sets, while another 25 per cent had access to sets.

Deal noted that there were no lights on the new antenna. "This is because we are not on the approach pattern to San Jose Municipal Airport," he said.

Honorary Offers Women Grads \$6,000 in Grants

Pi Lambda Theta, national honor and professional association for women in education, is offering two \$3,000 fellowships for the 1963-64 academic year, according to Don Ryan, assistant to the dean of students.

Awards will be made to women of promise or distinction who present a proposal for research which may potentially contribute to educational theory or practice.

Applicants should have completed at least one year of graduate study. Post-doctoral research applicants will be considered also, Ryan said.

Deadline for applications is January 3, 1963.

Music Professor On Showcase Sunday Evening
Sunday evening, "Showcase, San Jose State," on station KLOK at 9:30, will feature an interview with Dr. W. Gibson Walters, professor of music and conductor of the SJS Symphony Orchestra.

Also on this week's "Showcase" will be a talk on career opportunities in commercial art by Miss Marion Moreland, and an interview of Dr. June McCann, head of the Women's Physical Education Department, about their program at SJS.

News and sports will wrap up the half-hour presentation.

armament for dissemination abroad.

"How stupid can we get?" he said of this clause. "Not only are we to be disarmed, we are to disseminate abroad information on how we are progressing in disarmament, so that other nations will be able to take advantage of our weakness."

Jackman strayed from his main topic of disarmament to toss out some barbs at the secrecy surrounding the recent U.S. action in Cuba, and answered several questions from the floor following his talk.

New Aerial Rises High; FM Coming

San Jose State is one big step closer to being able to listen to its own FM radio station, KSJS.

The target date for KSJS' debut has been set at Dec. 3.

Yesterday, an omnidirectional antenna was installed 130 feet above campus atop the Library's north wing. The antenna, when in operation, will be able to transmit in a 10-mile radius, which will cover to Redwood City on the north, and to Morgan Hill on the south.

Two of the students who will head the new broadcasting staff are John Deal, chief engineer, and John Delantoni, station manager. Deal is a senior industrial arts major and has a Federal Communications Commission radio telephone commercial class license. He must be present, by law, whenever the transmitter is in operation.

The antenna, as an extra precaution, is guyed in three places by 6,000-pound test rope, though it is of the self-supporting type. Wire guy lines are not used because of possible interference with transmission.

Delantoni said that there was a survey run three years ago at the campus, to determine how many potential listeners an FM station might have. Results showed that 25 per cent of the students at that time owned FM sets, while another 25 per cent had access to sets.

Deal noted that there were no lights on the new antenna. "This is because we are not on the approach pattern to San Jose Municipal Airport," he said.

Hawaiians Plan Dancing, Dinner

Hawaiian entertainment and a Thanksgiving dinner will be the unusual combination offered by the Hawaiian Club tomorrow night at 6:30 in WG22.

The club will also provide Hawaiian entertainment and a dance. Cost is \$1 for non-members and one can of food for members.

Proceeds from the event will be used by the club for its annual project to build Thanksgiving baskets for needy San Jose families.

Elated Elevators

Since when can an elevator be a source of amusement? Well, just add 20 impatient students loaded with books, bulging purses, protruding slide rulers and one fraternity dog.

On one such day last week, I boarded car No. 2 in the library's north wing.

Seven coeds snuggled into the spacious car as we waited for the doors to close.

But, alas, four stalwarts from the engineering department barged into the car, their slide rulers swinging with great authority. "Watch that slide rule, buster," one coed snarled.

FATE STEPS IN

Barfus IV, Beeta Cow Teetha's best mascot, came drooling into the now filling elevator. On the leash, Barf was somewhat calm.

We finally got off to a rising start, the 12 of us and Barf. At the second floor, the coeds got off. This seems about par . . . wait five minutes on the first floor to get to the second.

Barf strained at his master's leash and nearly got his pulsating nose tweaked in the sliding doors.

Up we went. The engineers jumped out at the fifth floor that is, Me? I rode down to the lobby, battered but brave.

'Charge Against Ike Will Not Stand Up'

Editor:

In regard to Edward Griffin's side of the story about the John Birch Society, what he has charged to Dwight Eisenhower will not stand up against logic and reason.

First, he charged that Eisenhower's rapid promotion in the early 1940s was due to his friendship with Franklin D. Roosevelt. Actually, during World War II the Army increased from a few hundred thousand men to between 10 and 15 million, and many career officers who had been majors or colonels were promoted to the rank of general. This would have occurred whether or not F.D.R. or any other Democrat had been president.

Second, it is true that Eisenhower did make the decision not to push for Berlin, but for sound military reasons. If Ike had pushed ahead with U.S. forces, the agreement previously made by political leaders of the U.S., Britain and the Soviet Union would have required Ike to withdraw his armies back to the point where he had stopped in West Germany.

Third, Griffin's statement that Ike stopped Gen. Patton from taking Eastern Europe is false. Patton's forces joined with the Russian armies from the East in Czechoslovakia. The Russians were already there, and in greater numerical strength than the Western Allies.

Although one may not agree with Griffin's side of the story, he certainly is entitled to present the viewpoint of the John Birch Society. But to make accusations against former president Eisenhower which cannot be backed up by logic and fact is entirely unwarranted. To blame Ike for the decisions of political leaders over which he had no control, and for advancement in military rank during a time when the Army was increased 30- or 40-fold in numbers is utter absurdity.

'Facetious' Letter Defended by Coeds

Editor:

This is in reply to Judy Smith's letter of Nov. 8, regarding Judy Thorstenson. How could she be so blind as not to see the real meaning behind Judy's comment to the question "What Changes Are Needed at San Jose State?" San Jose State is known for its social life, as was proved a few years ago when it was chosen "Party School of the Year" by Playboy Magazine. It should be obvious to anyone with the least sense of humor that Miss Thorstenson was only being facetious.

Miss Smith seems to have disregarded completely the latter part of Judy's statement (in which she was being serious). She brought out a controversial point among many professors, "Do term papers add or detract from the general knowledge of a course?"

As her friends we felt it necessary to defend Judy, who is a conservative girl and a conscientious student.

Perhaps Miss Smith has not been in college long enough to

Defeated Water Bond To Try Again June 11

By DON CHAPMAN

Whether or not advocates of the defeated \$42,050,000 Santa Clara County water bond issue can overcome three opposition strongholds to push through their measure on the second attempt will be decided June 11, 1963.

That's the date set by the county supervisors for a special election on the importation issue after its narrow margin of defeat Nov. 4. Although the needed two-thirds majority approval was not obtained on the general election ballot, 65.4 per cent of the voters marked on the

yes level, just 1.3 per cent short of the required amount.

Palo Alto offered regional opposition to the bond, but according to Frederic A. Weed, head of the Department of Political Science and Administration, the organized opposition in Sunnyvale and right here in San Jose killed it, or knocked it unconscious temporarily.

SUBSIDY CHARGED

The local organization, headed by Alden Campen, was organized for the primary purpose of defeating the issue. The City of Sunnyvale opposed it on the grounds that taxpayers there didn't want to "subsidize the San Jose City Water Works."

Offered as solutions to get the bill passed have been provisions to cut parts of it not needed immediately. Lee Browne, local real estate man, suggested a water plan in the neighborhood of \$18,000,000 to meet immediate needs.

However, Donald Currin, head of the County Flood Control and Water Conservation District, blamed the defeat on the short duration of the county's educational campaign on the issue.

"CLEAR INDICATION"

"The 65 per cent majority on the ballot is a clear indication that the vast majority of people in the county are satisfied with the physical part of the plan," he said. "It's a good plan. I can't see any reason to change it."

SJS Police on TV

The SJS Police School is featured on "Perspective," Saturday morning at 10 on Channel 11, KNTV.

The program is produced by Richard E. Elliot, assistant professor of drama, and is student directed by Thomas Graham.

The rigorous training of a man or woman in a law enforcement major program will be discussed.

The program will include films of actual class room situations and featured guest will be Lt. Robert Jensen, a member of the student staff.

See us for all your bakery needs. Wedding cakes, party pastries, birthday cakes and pies. San Jose's finest independent bakery

PANHellenion—Members of the Greek Folk Festival company rehearse one of the routines they will perform this evening at 8:15 in Morris Dailey Auditorium. Authentic Greek costumes and music make the production colorful and realistic.

Guitarist-Singer Featured Tonight In Folk Music Fete

K. C. Douglass, Negro blues guitarist-singer, will be featured tonight at this semester's first concert presented by the SJS Folk Music Society. Admission is \$1 to the concert, which will be held in E132 at 8 p.m.

Douglass, who sings at the Barge in Sausalito, is one of the few authentic Negro blues singers on the West Coast. He has run the gamut of employment experience, having worked on farms, saw-mills, railroads, construction gangs and various other odd jobs. Since World War II, he has lived in Berkeley, and has recently been recorded by Prestige records.

Douglass's style of singing and his primitive style of guitar playing is an art seldom encountered today, predating the era of jazz known as sophisticated urban blues.

Born on a farm, near Canaan, Missouri, Douglass grew up in the heart of the blues country near the Mississippi-Tennessee border. His music reflects "one of the truest and most soulful expressions of the culture of the American Negro," according to Page Brown, secretary of the club.

'Panhellenion,' Greek Festival Appears in Morris Dailey at 8:15

Greece, its people, its exciting music and its customs, will be presented tonight when "Panhellenion," Greek Folk Festival, performs at 8:15 in Morris Dailey Auditorium.

"Panhellenion," one of the most colorful productions ever to salute a nation, brings to America for the first time, a company of more than twenty dancers, instrumentalists and singers.

According to the ancient myths, even the gods danced and Zeus himself took part.

The dance is a vital part of Greek life and history. With the drama, it emerged as a great art form out of the festivals held in honor of the deities.

The production draws music, story and customs from all areas of Greece, from Macedonia in the north to Crete in the south, from Rhodes off the shore of Turkey to the Pindus Mountains in the west.

COLORFUL PRODUCTION

The production is a combination of exciting dances, exotic musical instruments and richly decorated costumes.

The dances, some performed by the men, some by the women and some by both, come from all parts of Greece.

Some of the dances are so old that their origins are lost. Others are believed to have been originated with the legendary heroes whose deeds they portray.

Other dances, of contemporary times, depict harvest scenes, wedding ceremonies and the struggle for freedom of mountain fighters.

MUSICAL INSTRUMENTS Adding to the color are the strange musical instruments. Most important for all Greek folk music is the clarinet, but unlike any clarinet heard in a modern symphony orchestra, because of its intricate tonal flights.

Another important instrument is the santouri, the Greek version of the cimbalon, rich in sonorities and surprising in the clusters of tone it can create.

The instrument is the one that

HIGH JUMPER?—This isn't an attempt to break the world's high jump record, but one of the dances to be performed by "Panhellenion" tonight.

popularized the theme song from the motion picture, "The Third Man."

Rounding out the folk orchestra will be violins and the lute-like bouzouki.

AUTHENTIC

Founder of "Panhellenion" is Eleni Tsauli, dancer, choreographer and director, who spent years in research and study to make the production as authentic as possible.

The richly decorated women's costumes for some of the traditional dances weigh as much as 20 pounds.

Tickets for the one-night pres-

entation are available in the Student Affairs Business Office, TH16.

Students and faculty will receive tickets free of cost, upon presentation of an ASB card or a faculty identification card. General admission is \$1.50.

The program is presented under the sponsorship of the ASB Spartan Programs Committee, which will present the Brothers Four, Dec. 4 in Morris Dailey Auditorium.

Irishman Buries A 'Grave' Issue

PORT WASHINGTON, Wis. (UPI)—The Ozaukee County Historical Society documented that an Irishman is practical and can use his wit to gain a point.

The society produced a record of a town meeting in the by-gone Irish settlement of St. Finbars in eastern Wisconsin at which a fence was proposed for the community cemetery. One Irishman was dead set against a fence and made his point this way:

"Who's trying to get in the cemetery?" he asked.

"No one," the others admitted.

"Anyone trying to get out?"

"No."

"Why do we need a fence?" the Irishman concluded.

The fence wasn't built, the society records showed.

Dining Out Is More Than Food

Dining out at Bohannon's is quick, efficient service. It's relaxing in our friendly dining room and enjoying a delicious meal.

But more than that, dining out is fun — it's the ideal way to start or end that special evening.

Dine out soon — at Bohannon's where the dinners are superb!

Bohannon's
1404 So. First St.

We'll be on the campus on the dates listed below, ready to give engineering and science seniors information on space-age careers in a dynamic industry.

If you are looking for a company offering assignments on programs of unique interest and career potential, you'll be interested in the advantages Boeing can offer you.

Boeing, for instance, is a major contractor on such advanced programs as the Saturn S-IC first-stage rocket booster, the X-20 Dyna-Soar manned space glider, the solid-fuel Minuteman ICBM, and the Bomarc defense missile system. Boeing is also the world's foremost designer and builder of multi-jet aircraft, including the eight-jet B-52H missile bomber, the KC-135 tanker-transport, the C-135 cargo-jet, and the famous Boeing 707, 720 and 727 jetliners. In addition, Boeing's Vertol Division is one of

America's leading designers and builders of helicopters. Research projects at Boeing are under way in such advanced fields as celestial mechanics, solid state physics, nuclear and plasma physics, flight sciences, space flight and propulsion.

Expanding Boeing programs offer exceptional opportunities to holders of B.S., M.S. and Ph.D. degrees in aeronautical, mechanical, civil, electrical-electronic and industrial engineering, and in engineering mechanics, engineering physics as well as in mathematics and physics. At Boeing you'll work in a small group where individual ability and initiative get plenty of visibility. You'll enjoy many other advantages, including an opportunity to take graduate studies at company expense to help you get ahead faster.

Drop in to your Placement Office and arrange for an interview. We're looking forward to meeting you!

Two Soccermen On All-Star Club

Although San Jose State's soccer team won only one league game, it placed two players on the first team of the Northern California Intercollegiate Soccer Conference all-star squad.

Senior Dietmar Demeter was named to the team as a back,

while junior Dave Kingsley achieved the same honor as a forward.

The University of California dominated the selections by having three players on the first team. Golden Bear forwards Kun Choo and Marcell Boyreau were expected choices, but the selection of goalie Alex Selvin over Gary De Long of City College of San Francisco probably was the biggest surprise of all the choices.

Stanford and University of San Francisco also had two players on the first team. The Indians selected were Al Knoli and Bill Teusch, while the Dons were Jim Lynch and Fernando Lopez-Contreras. Lynch was the only returnee from the 1961 team.

Otto Boss of San Francisco State and Caesar Pina of CCSF rounded out the first team.

SPARTAN ALL-STARS—Two San Jose State soccer players, Dietmar Demeter (left) and Dave Kingsley (right), were named to the first team of the Northern California Intercollegiate Soccer Conference. Ed Zumot, who received honorable mention in the selections, admires Demeter's plaque.

Miller Wants Seven Men To Go to NCAA Finals

Coach Dean Miller expressed mixed emotions yesterday when he learned that the Student Council had granted final approval to allocate funds for the NCAA finals a week from Monday at East Lansing, Mich.

He was pleased with the approval of his request, but was surprised to learn the \$2,017.60 is to cover six men and himself, and not seven men as Miller has wanted all season.

One reason the Spartans failed to overtake Oregon State last year was because they had only five men running. The lower number of men cuts into the point total. Besides this, the higher number allows for injury or illness.

"We need seven men badly," he commented. He added, "It will be bad enough to pick seven out of eight, let alone six of seven." Today's Northern California

Invitational championships at 4 p.m. on south campus track probably will determine the final man to go.

Miller already has his top five men ready. Danny Murphy, Jeff Fishback, Ben Tucker, Ron Davis and Jose Azevedo are set to go. The sixth, and possibly seventh positions, are contested between Horace Whitehead, Gene Gurule and Tom Tuite.

Whitehead finally came around to expectations Saturday against Stanford when he ran his best time of the year (20:05) at Stanford's 4.2-mile course. This was under the 20:09 record set three weeks previously by Murphy. Four other Spartans completed the distance under the record also. Murphy lowered the time to 19:33.5.

Once again the Spartans will come up against Stanford (for the third time this year), Cal (for the second time), the Santa Clara Valley Youth Village and the Marin Athletic Club, each for the first time.

So far, the Spartans have beaten the Indians every time out. Miller said that the Indians will either "come down here with their

tails between their legs or with blood in their eyes."

Miller does not see how his team can remain at such a high emotional pitch to stay up for Stanford, the third-rated team nationally. "The boys have never let down yet," he said. "And they won't let anyone beat them," he added.

"If Stanford is breathing down their necks, it will help them," Miller explained.

The Youth Village has Jim Shetler who is a great steeplechaser and a good cross country man, according to Miller. Marin AC has Dave Beardsall who placed fourth at the Sacramento State Invitational early in the season.

Cal-Hawaiians Meet Phi Sigs in Playoff

Touch football and cross country usually do not mix but, in the case of today's All-College Championship game and the Northern California Invitational Championships, it is a different story at Spartan Stadium.

The intramural football game begins at 3:30 between Phi Sigma Kappa, the fraternity league winner, and the Cal-Hawaiians, the independent league champ. The cross country event will start 10 minutes through the second half of the football game at approximately 4:10 p.m.

The cross country finish line, normally on the track, will be on the field, in order that football fans and track enthusiasts can witness both sports.

Phi Sigs progressed to the championship game after taking a peculiar victory from PiKA in a game played Wednesday. Even though PiKA had five good chances to score, it failed to do so, in both regulation and overtime play.

On the basis of the Phi Sigs' win over PiKA earlier in the year, the decision of victory was awarded to the Phi Sigs to resolve the tie.

In the only other football game Wednesday, the Army ROTC displayed power over the Air Force ROTC and blanked the AFROTC team, 7-0.

The Army's Brian Ziel pitched to Frank Maloney for the only touchdown of the day and later hit Geza Csimma for the point-after.

Bowlers, whose entries are due today, will begin play Nov. 27. The teams will compete at Alma Bowl and possibly at Downtown Bowl if more than 28 teams sign up. Bowling matches are Wednesdays and Thursdays.

Also due today are entries for the Turkey Trot and the Greek Relays which will be held on Tuesday. The Turkey Trot is approximately three miles long and runners follow a path to the South Campus and back to the Men's Gym.

Basketball entries are due Wednesday, and the season begins Nov. 29 for fraternities and Dec. 3 for the independent teams.

Stanford Meets San Jose Tomorrow

Indians Defeated SJS Sixteen of 18 Games

San Jose State will be after its third victory in a series of 19 games when it meets Stanford's Indians at 1:30 p.m. tomorrow at Stanford Stadium in Palo Alto.

The Indians have beaten top-notch clubs like Michigan State and UCLA, while the Spartans lone victory this year came at the expense of the UOP Tigers.

In the Stanford-San Jose State series, dating back to 1900, the Indians have taken 16 of the 18 games played. In the first five

seven times. The Indians have outscored SJS 617-204 in the series.

This year the Indians have one of the biggest lines that SJS has come up against. The center, C. E. Simons packs 230 pounds on his 6-0 frame. The guards, Mary Harris, 224, and Frank Dubofsky, 225, are big and agile.

At the tackle positions, the Indians have two more big men. Frank Atkinson, 245, and Al Hilbrand, 236. The ends are also big and fast. Frank Patitucci weighs in at 213 and Steven Pursell is 212.

Broadcast

The Stanford-San Jose State grid contest will be broadcast tomorrow at 1:30 p.m. over radio stations KEEN and KCBS. A pregame show will be aired over KCBS starting at 1:05 featuring interviews with the coaches.

games played against the Indians, San Jose failed to score as Stanford ran up 165 points.

The Spartans first win over the Tribe came in 1954 when they downed the Stanford team 19-14. The other Spartan victory came in 1960 when the San Jose State eleven surprised the Indians and whipped them 34-20.

Over the years, however, Stanford has shutout the Spartans

—photo by John Henry

WHO HAS THE BALL?—No one seems to want the ball as Jim Cadile (80) of the Spartans and Bill Knocke (41) of Fresno State watch the ball drop in front of them. Larry Fogelstrom (86) of the Bulldogs is coming in but he is too far back to make the catch. The Bulldogs beat the Spartans 20-14 Saturday.

Sidelines

By DON CHAPMAN

'Greatest Ever' on Display

An opportunity to see the San Jose cross country team, "definitely the greatest team ever assembled in the United States," according to Track and Field News editor Bert Nelson, and meanwhile watch the All-College intramural football championship game, exists this afternoon at 3:30 p.m. in Spartan Stadium.

Phi Sigma Kappa, co-champion of the fraternity league, and the Cal-Hawaiians, independent league champs, square off at 3:30 p.m. After approximately 12 plays of the second half, (around 4:10 p.m.), the Northern California Cross Country championships will get under way, as the footballers temporarily leave the field.

Along with the Spartans, Stanford, Cal, the Santa Clara Youth Village, and the Marin Athletic Club teams will leave the stadium on their 4.2 mile jaunt. They are expected to return about 4:30 p.m.

MILLER'S ANALYSIS

Coach Dean Miller's enthusiasm for his cross country team understandably bubbles. Nelson, who witnessed the spikers' recent performance at Stanford, poured additional compliments SJS' way, such as "the greatest team performance in the history of cross country," and of Danny Murphy, "the greatest single effort in history."

Stanford's course is very accurate and consistent," Miller said, "a flag marks every 10 yards and the distance doesn't vary from meet to meet as on other courses."

This is why Nelson's comments were so superlative. For what took place on the course Saturday shows individual strength and team depth that is truly amazing.

Danny Murphy lowered his own course record from 20:09.2 to 19:33.5.

Max Truex's previous record of 20:15.8 was beaten by five Spartans—Murphy, Jeff Fishback, Ben Tucker, Horace Whitehead and Ron Davis.

The Spartan team lowered its own record of 1:41.41.8 to 1:39:31.7. The team now has the three top times on this course.

The team now has seven of the 10 fastest men in history on this course.

NATIONAL CHAMPIONSHIPS

Eyes now are turning to the big national championships, to be held Nov. 26 at Michigan State University, at East Lansing, Mich.

Defending Champion Oregon State and Villanova are expected to be top competitors for the Spartans at the big meet.

STORY IS BACK

Individual National Champion Dale Story from OSC is back, along with two fine young sophomores—Tom Sullivan and Dave Hyland.

From Villanova Pat Traynor, who ran the steeplechase in the U.S.-Russia track meet this summer, along with Vic Zwolak, figure to make Villanova "the team we fear most," according to Miller.

Miller had emphatic words for his men this week. "It may be years before we could assemble a team of this caliber again. Let's make sure we get it while we have the chance."

It looks as though they will.

DARK MOMENT — Joanne Woodward (Eve) struggles through a schizophrenic split with her psychiatrist (Lee J. Cobb), at tonight's Friday Flick presentation, "Three Faces of Eve." The story is taken from the case history of a multi-personality woman studied at Northwestern University in the mid-50's.

1957 Oscar Winner, '3 Faces of Eve' Tonight's Flick

Tonight's Friday Flick, "Three Faces of Eve," will run twice in TH55; once at 7:30 and again at 9:30.

"Eve" is the true story of a woman (Joanne Woodward) who suffers from a triple personality. She is unable to control the appearance of any of them. Her psychiatrist, Lee J. Cobb, takes her through a series of difficult corrective therapy to help her regain her health.

Miss Woodward won the Best Actress of the Year Academy Award in 1957 for her portrayal of Eve.

Due to the length of the show, and its double run in TH55, students are requested to be in their seats before 7:30.

Admission is 25 cents with an ASB card, and is also open to members of the SJS College community.

Tri-C Weekend Retreat To Star Football Great

The Rev. Donn Moomaw, a college football All-American for three years at UCLA, will be the speaker today, tomorrow and Sunday at the fall conference of TRI-C Club, Baptist student organization.

"The High Cost of Loving" is the theme of the conference, which is to be held at Koinia Conference Center in the Santa Cruz Mountains.

After achieving a nationally acclaimed athletic record at the college level, Mr. Moomaw attended Princeton Theological Seminary in 1957, and has been with the First Presbyterian Church in Berkeley since his graduation.

He is one of the group which organized the "Fellowship of Christian Athletes" and has addressed students on campuses throughout the world.

Cost of the weekend, which includes recreation, study time, discussions group and a number of lectures is \$10, according to Tri-C President John Burnett. Transportation is included, and reservations may be made by phoning Laurel Klaisner, CY 8-6041.

THE REV. DONN MOOMAW
... former All-American

Heads SAC

Students Against Communism, campus conservative political organization, elected SJS senior Bill Baker as club president in recent elections.

Job Interviews

Appointments should be made on Tuesdays, one week previous to interviews, at the Placement Office, Adm234.

TODAY:

J. J. Newberry: Business administration and economics majors or any major interested in retailing.

San Francisco Civil Service Commission: Business administration, social services and civil engineering majors.

United States Air Force Base at San Bernardino (Norton): Electrical engineering, mechanical engineering and industrial engineering majors.

College Life Insurance Co.: Any major interested in sales and sales management.

Pan American Petroleum Co.: Geophysics, math, physics, electrical engineering and geology majors.

MONDAY:

Titanium Metal Corp.: Industrial Technology, metallurgical engineering, mechanical engineering, chemical engineering and accounting majors.

Burroughs Welcome Co.: Business administration majors with background or experience in biology, pharmacy or chemistry.

Litton Industries: Electrical engineering, mechanical engineering, and applied mathematics majors, preferably with master of arts degrees.

Interviews Today For Newscasters

Interviews for radio news broadcasters for the campus FM station, KSJS, will be held this afternoon in J202 from 1:30 to 2:30.

Gordon Greb, associate professor of journalism, said that it is not necessary to sign up for a journalism course to participate.

He added that credit can be obtained, starting next semester.

Petersons Get Ready For SJS Graduation

By CAROL SWENSEN

It's not unusual for a mother to be proud that her daughter will graduate from college, but when the mother will graduate at the same time, then you've got the start of a "family plan."

Mrs. Marie Peterson will share graduating honors in June, 1964, with her daughter, Mrs. Maryevelyn Bartholomew. Both are elementary education majors.

Mrs. Peterson lives in Campbell with her husband, Wilfred, an employee in the PEX department at the Pacific Telephone Co. in San Jose.

A third addition to the Peterson family will also don an SJS cap and gown. Maryevelyn's husband, Richard, will graduate in mechanical engineering in June, 1963.

Graduating from San Jose State seems to run in the family. Mrs. Peterson's daughter, Mrs. Betty Lou Null, is a graduate and her youngest daughter, Susan, is a senior at Campbell High School and plans to enter SJS in the fall. Susan also will follow in her mother's footsteps as an elementary education major.

LONG LIST

The list of Mrs. Peterson's relatives who have chosen SJS as their college seems never-ending. Both her brother and twin sister have received diplomas.

In 1947 Mrs. Peterson came to the campus and enrolled in a dress design class. "This was my first experience in college, but I didn't take any more classes because my family was too young to leave alone at that time," she said.

It wasn't until 1958 that she returned to college, this time to night school. Working as a school secretary at Moreland Elementary School made day sessions impossible to attend.

Mrs. Peterson enrolled as a full-time student in fall, 1961, and has remained full-time since then.

Because she and her daughter, Maryevelyn, are both elementary education majors, they aid each other in studying. "We discuss everything from our preparation to our tests. I'm able to help her on my strong subjects and she helps me on math problems," commented the grandmother.

Mrs. Peterson has been a grandmother for three years after the arrival of Elaine Null to her daughter, Betty Lou, and her husband.

'TEST MODEL'

"I find Elaine quite helpful, for I can watch her creative abilities and use her as a model to test my education methods courses," she added.

After graduation Mrs. Peterson hopes to teach in either the Moreland or Campbell school districts.

"FAMILY PLAN"—Mrs. Marie Peterson (l.) enjoys a class break with her daughter, Maryevelyn, and son-in-law Richard Bartholomew. Mrs. Peterson will graduate in June, 1964, with her daughter. Bartholomew will leave SJS with a diploma in June, 1963.

'Carnival' of Contests Offered at Bookstore

A carnival of contests is being offered by the Spartan Bookstore.

Some of them are open to students and faculty and others, just to students. A ballpoint pen contest is offering a total of 60 prizes for guessing the number of ballpoint pen caps in a bigger-than-a-basketball glass bowl. Twin prizes are offered for each of the five top prize winners. Being given are stereo record players, wristwatches, transistor radios, chrome pen sets, and marble desk-pen sets. Fifty sixth prize winners will take home twin-stick pens.

Another contest, sponsored by a tobacco company offers 50 sports convertibles to the winners of their Grand Prix 50 contest.

A football score-guessing contest can win its contestants \$100 for first prize, \$25 for second and 10 runners-up prizes of \$10 each.

Possibly attracting the most group participation is the contest which promises a 19-inch television console free for the entrant returning the most cigarette wrappers to the bookstore on Nov. 19.

EMPLOYEE THIEVES

NEW YORK (UPI)—The average employee thief during 1961 helped to steal an estimated \$2 billion from U.S. companies, according to a case-history study made recently by one of the nation's major business-security and research organizations.

Only 25 per cent of these thefts are cash, the other 75 per cent in merchandise. The average thief is in his early thirties, father of two children and a member of two or more social organizations, the survey disclosed.

30 Initiates for Psi Chi

The San Jose State chapter of Psi Chi, national honor society in psychology, recently initiated 30 members into its organization.

Advised by Dr. Walter Plant and Dr. George Muench, both professors in the SJS Psychology Department, the society holds monthly meetings centered on discussions

and lectures on various aspects of the psychology field.

Presiding over the organization are Miles Vich, president; Mike Meeker, vice president; Pauline Berner, secretary; and John Love, treasurer.

SLIM JIMS

NEW YORK (UPI)—As late as 1844, the slim waistline was considered top form for a gentleman. In both London and Paris, those not favored with narrow waists wore corsets.

THE LIGHTPOLES

NEW YORK (UPI)—Madison Avenue's advertising inhabitants ran their slogans up the lightpoles Monday because of repaving on their street.

An ad executive posted some of these signs: "Copywriters... don't create unnecessary widows—cross at next corner." "Art directors... don't get excited—we'll retouch it."

**History Fraternity
Elects 4 Officers,
Adds 9 Members**

Rudolph Pedulla was chosen president of Phi Alpha Theta, national history honorary society, at the organization's last meeting Tuesday. Three other officers were elected and nine new members initiated at the meet.

Jerrold Jefferson will serve as treasurer for Phi Alpha Theta, while Andrew Ghigieri and Sharon Watson will be publicity secretary and historian, respectively.

Incumbent officers are Martin Zanger, vice-president, and Sue Logue, secretary.

**San Francisco Visit
For Weekend Co-Rec**

A word of warning to the city of San Francisco... SJS' weekend Co-Rec is headed your way on Dec. 1.

It seems that there's a bargain that many just couldn't pass up. After all, for only \$7.50—a couple, no less—they'll get to see "Tales of the Brothers Grimm" at the Orpheum Theater. Not such a bargain you say? Well, how about this?

After the show the whole gang will head for Louie's on Grant Ave. for chow, which we understand you claim to be one of your foremost Chinese restaurants.

They're going to leave from the Women's Gym down here about noon in private cars, so they should be up your way around "oneish."

You'd better get ready for couples, because that's as many we'll let go. We don't know if they are yet, but we will by Nov. 21, since they must be all sign up and paid up in TH16 by then.

**Philosophy Prof
Authors Book**

"Philosophical Problems of Psychology" is the title of a recently published book by Dr. Edward Madden, professor of philosophy at SJS, now on leave to teach at Amherst College.

Dr. Madden is the author of 10 other volumes, as well as 25 articles which have been published in professional journals.

First Honorary Fraternity Once Noted for Culinary Artistry

By RONALD BRILL
During the 1920s and 1930s when SJS' first honorary fraternity was still in adolescence, brothers of Tau Delta Phi were noted not only for their academic scholarship, but also for culinary artistry.

In 1927, when the fraternity inherited the famous Tower as its exclusive meeting place, preparation began to remodel and redecorate the former four-story storage area.

Subsequently a kitchen and dining area were added in addition to a meeting room and recreation area. This improved facility became so popular that Tau Delta Phi initiated combination meeting-luncheons.

In fact, the fraternity during the period between World Wars I and II, became an exclusive "eating house" similar to those at Harvard and Princeton today.

Fraternity history lists meetings as being held between 11:30 a.m. and 1 in the afternoon, with business sandwiched in between courses of fraternity prepared lunch.

During this period an important precedent began. That precedent was the invitation of distinguished faculty to join fraternity members in the Tower. Different faculty members were invited each week from all departments to rub shoulders with the ivy-tower scholars.

Today, the fraternity is in its 46th year of operation and con-

tinues this tradition of informal faculty-student relations even though weekly meetings are now held in the evening.

In recent years, once a semester, Tau Delta Phi brothers invite faculty members of their choice as guests to attend the Tower luncheon.

The purpose of these luncheons has still remained, however, and closer faculty-student relations has resulted. Since the Tower fraternity is not restricted to any one field or major, a member is encouraged to talk with professors out of the student's major field, whom he would not otherwise get an opportunity to meet.

Honorary faculty and staff members are also invited to the lunch-

cons. One such honorary member, Byron Bollinger, supervisor of SJS construction, is closely affiliated with the fraternity since the Tower is a center of both his and fraternity interests.

In a recent interview, Bollinger recalled being a guest at one of the fraternity luncheons years ago when culinary artistry in the group was at its peak. "The fraternity had a wonderful cook then," he remarked.

Things have changed since World War II, however, and fraternity leader John McCarthy tells of some of the changes.

"Now it seems that the Philosophy department usually invades en-masse to this luncheon, but then a good many of the honorary

members are philosophers," says McCarthy.

In addition to philosophy becoming more prominent than fancy dishes, McCarthy adds in perspective, "One reason for the faculty-student meeting is to give us an opportunity to impress professors with our serious scholarship."

This is in keeping with the fraternity purpose of promoting scholarship throughout the college.

What the fraternity has lost in terms of food preparing genius, it has gained in reputation as the one group on campus where even the faculty are welcomed and encouraged to share their wisdom with members.

And, incidentally, the luncheons have come to be called "The time-honored way of raising the G.P.A."

Friday, Nov. 16, 1962

SPARTAN DAILY-9

Chemistry Prof Tackles Hydro-Carbon Project

Lanny L. Repligle, assistant professor of chemistry, is currently working on a two-year research program involving the "Synthesis of some Heterocyclic Analogs of Non-Benzenoid Conjugated Hydrocarbons."

According to Repligle, the idea of the project is the development of a new series of compounds which will be compared to non-benzenoid hydrocarbons.

"Benzene and benzenoid compounds have been extensively studied, and their properties are well known," said Repligle. "I hope that my work will contribute to the general aromaticity."

is a term used to classify compounds with definite properties. In this case, structure is the property being classified.

The first member of this proposed series has been developed, and a commercial drug company has expressed interest in it. Repligle sent a sample to the company, where it was tested for biological activity.

"The addition of a Nuclear Magnetic Resonance spectrometer should be of great help in the research," said Repligle. "This type of machine was developed as an aid in the identification of compounds; it is a comparatively new technique."

Aromaticity, as he described it,

Musicians Plan New Scholarship

American Federation of Musicians, Local 153, has completed plans for a scholarship to be awarded to a graduating senior of a Santa Clara County high school planning to major in music at SJS, according to Orrin Blattner, Local 153 president.

The scholarship will cover a full year's tuition here according to Blattner, a 1941 graduate of SJS. Dr. Gibson Walters, SJS professor of music, and member of Local 153, has been appointed by the local to take charge of the scholarship program.

PHOTO SEMINAR—Eight members of the SJS chapter of Kappa Alpha Mu, national photo-journalism fraternity, attended a two-day National Press Photographers Association news photographers' seminar in Sacramento this week. Margie Yamamoto, Barry Stevenson, and Bob Hall discuss merits of a prize-winning photo with George S. Honeycutt, right, of the Charlotte, S. C., News and Observer, NPPA press photographer of the year. SJS faculty members at the seminar were Joe Swan, assistant professor of journalism; Morton A. Boss, associate professor of photography, and Robert R. Coleman, associate professor of art.

UC's Kerr Supports Free Speech

By College Press Service

BERKELEY — President Clark Kerr of University of California reaffirmed last week that he would not allow outside forces to restrict freedom of speech and inquiry at the university.

Speaking to 3,000 students at an outdoor meeting, Kerr said "The right to free inquiry is an integral part of the American society. The non-conformist, as contrasted with the conformist, today as in ages past serves humanity, and the university is one of its havens. When freedom of thought and expression has died on a university campus, it will be dead everywhere."

Kerr's speech was in reply to a campaign statement by Richard Nixon in the race for the governorship of California. Nixon had said that as governor he would issue an executive order forbidding persons who have taken the Fifth Amendment or violated the Subversive Control Act of 1951 from speaking on state-supported campuses.

Kerr did not mention Nixon by name at any time. He quoted the relevant clauses of the state constitution on the independence of the universities from "political and sectarian influence."

Goldwater Issues 2nd Complaint Against Another College Paper

By College Press Service

CHAMPAIGN, Ill. — Senator Barry Goldwater (R-Ariz.), recently victorious in efforts to have the editor of the Colorado Daily fired, has gone after a second college newspaper for printing derogatory remarks about him.

The Daily Illini, University of Illinois, received a letter from Goldwater last week attacking a recent Daily Illini column critical of the senator. Senator Goldwater, whose similar complaints about an article in the Colorado Daily touched off a furor resulting in the firing of editor Gary Althen, maintained in the letter that Roger Ebert, author of the column, was denying him the "right to be critical."

LETTER 'IRONIC'

Goldwater's letter was deemed ironic by Ebert and others, for Colorado University President Quigg Newton had used the same argument a few weeks ago in writing to the senator: "The cry you raise has a very familiar ring to us: 'You must silence those who disagree with me.'"

The Daily Illini article, a signed political comment column, said, "(Goldwater) made us wonder, just a little bit, what an American is these days... and how far that definition can be stretched. Can it be stretched to include a man who

exploited Cuba for 60 years, and certainly he can't document that accepting Castro as a leader is any way to search for self-respect. Also, how does his statement now rate the president since he has come out for action that I have long advocated?"

Goldwater concluded, "I would suggest that Mr. Ebert, if he has serious intentions of becoming a reporter, a writer, or an editor, get it through his head that he won't go far stating untruths, or half-truths. As the old saying goes, You can fool some of them some of the time, but you can't fool all of them all of the time."

'UNFORGIVABLE CRIME'

The column concluded "As a conservative supposedly dedicated to the proposition of individual liberty, Senator Goldwater has committed an unforgivable crime against all the American ideals of that liberty. We suggest that serious, responsible American conservatives start looking for a new figurehead. This particular golden calf has a heart of mud."

In his letter to the DI, Goldwater replied, "(Ebert) is denying me the right to be critical of the president of a university, and I suppose for that matter, anybody else. If he really believes in this freedom he prates so much about, then let him realize that it is a two-way street."

'COLUMNIST INCOMPETENT'

The senator also accused the DI columnist of incompetence, saying "This is a rather amazing bit of writing because it shows absolutely no homework and one of the first lessons a reporter or a writer must learn is that he must be fully aware of his facts before he takes to his typewriter."

"For example, Mr. Ebert is obviously not aware of Art. IV, paragraph two of the Constitution which tells what the law of the land is. I doubt that he can document his statement that America

French Society Installs Officers

Margaret De Bem will serve as president of Iota Delta Phi, French honor society, for the coming semester.

Installed with Miss De Bem at a recent open house sponsored by the society, were Patricia Joplin, vice president; Kathy Dunn, secretary; Diane Howard, treasurer; and Helen Thornquist, reporter.

Theme Chosen For Sparta Sings

"Let's Make Believe We're..." has been chosen as the theme of this year's Sparta Sings, sponsored by the Associated Women Students and Inter-Fraternity Council.

Date of the contest will be decided at a later time, according to Dave Loomis, I.F.C. president.

Pall Mall Presents~ GIRL WATCHER'S GUIDE

HIGH-FLYING
GYM-DANDY

Can You Remember

Molly Moonlight?

Or do you belong to the group of unfortunates who missed Molly at our last Moonlight Sale? If so, why don't you drop down tonight and join the crowd at Alco-Paramount. (Free coffee and doughnuts!) If you're thinking of purchasing a Television, FM Tuner, Amp., Tape Recorder, or complete Stereo System, take advantage of terrific savings at tonight's Moonlight Sale.

Open tonight from
7 p.m. 'til 11 p.m.

Who knows, you might even run into Molly Moonlight!

79 SOUTH 3RD ST. CY 7-7111

CAMPUS TYPE IV

Few sights in all the world of girl watching are as breathtaking as the unexpected observation of a Gym-Dandy in midair maneuver. Plato might well have had the Gym-Dandy in mind when he wrote, "When a beautiful soul harmonizes with a beautiful form, and the two are cast in one mould, that will be the fairest of sights to him who has the eye to contemplate the vision."

Although the Gym-Dandy is a joy to behold even while tightening the laces of her sneakers, she must be seen in action to be fully appreciated. The same thing is true of a Pall Mall. It's a long, firm cigarette in a handsome package, but it must be tasted to be fully appreciated. Try Pall Mall and see.

**Pall Mall's natural mildness
is so good to your taste!**

**So smooth, so satisfying,
so downright smokeable!**
